Richard Teller Crane
Crane, 1855

“I am resolved to conduct my business in the strictest honesty and fairness; to avoid all deception and trickery; to deal fairly with both customers and competitors; to be liberal and just toward employees; and to put my whole mind upon the business.”
Together we are strong

History

What is CBS?
At CRANE, we call this Crane Business System. It is our driving philosophy.

What does this mean?
CRANE is committed to designing products to meet customer specifications, manufactures them in our own factories, distributes standard product from strategically located inventories and services valves at customer locations.

Delivering value to our customers, through world-class operation.
Crane Co. is a diversified manufacturer of highly engineered industrial products with a substantial presence in a number of focused niche markets. We are dedicated to integrity and honest dealings in all that we do.

**LEADERSHIP**
Our businesses have leading market shares in focused niche markets and seek to produce high returns and excess cash flow.

**GLOBAL REACH**
Worldwide operations in over 120 locations with top people and products, customer focus and a common Crane Business System throughout the company.

**FINANCIAL STRENGTH**
Crane has a strong financial position, giving it the capacity to continue strategic acquisitions.
Together we are strong.

The Fluid Handling segment is a global provider of industrial fluid control systems for critical applications where engineered solutions are vital. Fluid Handling is Crane’s largest business segment.
Crane ChemPharma & Energy designs and manufactures a variety of high performance products including an extensive line of valves, actuation, sight glasses, lined pipe, fittings and hoses, and air-operated diaphragm and peristaltic pumps.

Our product portfolio is designed for the most demanding corrosive, erosive, and high-purity applications in the chemical processing, biotechnology, pharmaceutical, oil & gas, refining, and power generation industries.
